### ***Soft Soothing Sounds* Announces the New Album *Soft & Smokey* by Craig Colley**

Laguna Niguel, CA - Soft Soothing Sounds is pleased to announce the latest release album from Craig Colley. *Soft & Smokey* is now available on Spotify, Apple Music, Amazon, iHeart, Pandora, Deezer and wherever you listen to music.

*Soft & Smokey*, an original piano / video compilation by Craig Colley, is soothing music against a backdrop of incredible animated and 'live' keyboard effects and visuals. Colley, a classically trained composer, musician, and videographer created *Soft & Smokey* to specifically promote self-care, meditation, and a positive escape from the stress of daily life.

The album consists of 16 new original instrumental piano pieces. Some of the favorites are *Soft & Smokey*, *Misty Morning*, *Falling Down* and *The Clearing*. The album is 1 hour and 13 minutes of beautiful melodies and imaginative chord progressions.

It is simply magical how Colley creates his music 'live' with breathtaking artistry. The entire recording is 100% improv and written as it happened.

Listeners of *Soft & Smokey* report that it is possible to have consistently productive, upbeat, and grounded days with less stress, anxiety and pain while viewing and listening to the dynamic and beautiful intonations.

*"Such beautiful music, and visuals! Love it!"*  
Neville VM, CA.

"I was looking for relief from my health issues and I found that nature sounds and images, combined with soothing instrumentals helped distract me. My calling is to create a platform of sound and visuals to help others relax, recover from sickness and pain, meditate, focus, or sleep in a gentle, serene environment. " *Craig Colley*

*Soft & Smokey* has already garnered over 6 thousand views on YouTube and can also be viewed on Facebook, Instagram, TikTok and LinkedIn. (YouTube – Complete album and music video: <https://youtu.be/AsACNb3mk7c>)
