***Soft Soothing Sounds* Announces a Heartfelt New Album *Bodie* by Craig Colley**

Laguna Niguel, CA - *Soft Soothing Sounds* is proud to announce the latest album release from Craig Colley. *Bodie* is now available on YouTube, Spotify, Apple Music, Amazon, iHeart, Pandora, Deezer and wherever you listen to music.

Bodie, an original piano / video compilation, is soothing music inspired by Colley's visit to a 1800's ghost town located near the eastern Sierra Nevada mountains in California.

The album consists of 9 new original instrumental piano pieces. Some of the favorites are *Dusty Wind*, *Tattered Times*, *Past Days* and *Worn & Battered*. The album is 1 hour and 6 minutes of heartfelt melodies and chord progressions.

It is simply magical how Colley creates his music 'live' with breathtaking artistry. There aren't any re-takes, do-overs, or manipulation of audio tracks so predominant in modern music.

Listeners of *Bodie* report that it is possible to have consistently productive, upbeat, and grounded days with less stress, anxiety and pain while viewing and listening to the dynamic and beautiful intonations.

Colley, a classically trained composer, musician, and videographer designed *Bodie* to commemorate the struggles of a past age and small community that lived through extreme hardships in the town of Bodie.

"Craig's creations of photos of Bodie and the music was thrilling to me because I live nearby."
David H.

Bodie has already garnered thousands of views on YouTube and can also be viewed on Facebook, Instagram, TikTok and LinkedIn.. (*YouTube - Complete album and music video* - <https://youtu.be/oyQlqfhT9xE>)
