### ***Soft Soothing Sounds* Announces a Romantic New Album *Glide* by Craig Colley**

Laguna Niguel, CA - *Soft Soothing Sounds* is proud to announce the latest album release from Craig Colley. *Glide* is now available on YouTube, Spotify, Apple Music, Amazon, iHeart, Pandora, Deezer and wherever you listen to music.

*Glide*, an original piano and majestic music video is tranquil music inspired by flying above beautiful natural landscapes to bring inner peace and meant to be shared with anyone wondering what the world feels like gliding above.

The album consists of 7 new original instrumental piano pieces. Some of the favorites are Above, Gliding, Floating and Treetops. The album is 53 minutes of thought-provoking melodies and clever chord progressions.

It is simply magical how Colley creates his music 'live' with breathtaking artistry. The entire recording is 100% improv and written as it happened.

Listeners of *Glide* report that it is possible to have consistently productive, upbeat, and grounded days with less stress, anxiety and pain while viewing and listening to the dynamic and beautiful intonations.

*"Lovin' the new relaxing tunes. It's good for the soul".*  
Bruce B.

Colley, a classically trained composer, musician, and videographer created *Glide* for anyone wishing to soar above the world in wonder to escape the stress of daily life.
