Meet the creator of Soft Soothing Sounds

My name is Craig Colley and I have composed the music and shot all the incredible landscapes you see in the videos.

I often combine my music with sounds of nature and images from around the world.

As a cancer survivor, health advocate and living with Tinnitus, I have personally discovered the rejuvenating power of music + nature.

As a result of that experience I created Soft Soothing Sounds. I sincerely hope it will help improve the quality of your life and provide a reliable pathway when seeking peace of mind.
